LESSONS

6. HOW MANY PEOPLE ARE ALLOWED PER LESSON? WHAT IS THE GROUP SIZE?

Our group lessons are limited to a maximum of six students per instructor. This allows us to provide personalized attention to each student, ensuring that everyone receives the necessary guidance and support during the surfing practice. However, in the same surfing area, other group or private lessons may take place simultaneously.

7. HOW CAN I BOOK LESSONS AT MADEIRA SURF CENTER?

Reservations can be easily made through our website. We have an online booking system that is very user-friendly and intuitive. Please choose the type of lesson you are interested in and follow the steps. Alternatively, you can contact us directly via WhatsApp, and we will be happy to assist you with the online booking process.

8. WHAT ARE THE BENEFITS OF HAVING A SURFING LESSON?

A lesson teaches the basics, surfing etiquette, and keeps you safe. Surfing is not as easy as it looks, especially in Madeira Island, where entering and exiting the water can be challenging. A lesson covers aspects that would otherwise take a long time to discover, such as how to catch waves. You enjoy your experience much more with an instructor who helps with positioning, pushes you at the right timing, and guides you on the correct waves and moments, saving your paddling energy.

9. IS EQUIPMENT INCLUDED IN THE LESSONS?

All necessary equipment is included in the surfing lessons. During our lessons, we provide Hurley wetsuits of 3.2mm or 4.3mm thickness, premium Ocean & Earth softboards, or Flowt boards ranging from 6' to 10' in size, and surfing boots. In the summer, we use short wetsuits. All equipment is carefully maintained to ensure the best experience and safety for our students.

10. CAN WE BRING OUR OWN EQUIPMENT FOR SURFING LESSONS?

While you may use your own wetsuit, our surfboards are provided and must be used during the lessons as they are specifically designed for teaching purposes. The lesson price is all-inclusive, so if you choose to use your own wetsuit, we cannot offer a price reduction. Rest assured, our equipment is well-maintained, and our experienced instructors are focused on providing the best possible experience.

11. CAN I KEEP THE EQUIPMENT AFTER THE SURFING LESSON?

Although you cannot keep the surfing equipment after the lessons, you have the option to continue

practicing by using our rental service. With the rental service, you can choose the type of board and wetsuit. We also rent soft car racks, allowing you to surf anywhere in Madeira. For more information about our surf rental services, visit our website and make your reservation online.

12. HOW MANY LESSONS DO I NEED TO LEARN THE BASICS?

The minimum number of lessons needed to learn the basics of surfing varies, but it is recommended to take between 10 and 20 lessons. These lessons should be spread across different days and locations to provide a more comprehensive and effective learning experience.

During these lessons, you will learn essential techniques, including:

Proper paddling: The correct way to paddle, which is crucial for positioning on the waves.

Board positioning: How to position yourself correctly for stability and control.

Timing to catch the waves: Understanding when and how to catch a wave at the right moment.

Basic maneuvers to stand up: Techniques like the "pop-up" to stand up on the board safely and efficiently.

Safety rules: Knowledge about safety in the sea and how to share the space with other surfers. These elements are crucial for building a solid foundation in surfing. Additionally, practicing in different surf spots is essential, as it helps you become familiar with various wave conditions. This not only boosts confidence but also improves the surfer's ability to adapt. It's important to keep in mind that even after completing 20 lessons, this does not guarantee that you will become an intermediate surfer. In surfing, the learning process is continuous, and practical experience is just as important as the lessons you receive.

13. WHAT ARE THE BEST MONTHS TO LEARN SURFING IN MADEIRA?

We offer lessons year-round, but learning is easier during the summer months (from April to November) when the waves are smaller, and the weather is more pleasant. It is important to note, however, that these are also the months when we have more students, and the island receives more tourists.

14. WHAT IS THE WATER TEMPERATURE IN MADEIRA?

The sea water temperature in Madeira can vary between 18°C from January to March and 24°C for the rest of the year.

15. IF IT RAINS, CAN THE LESSON BE CANCELED?

Rain does not prevent our surfing lessons from taking place. The sea conditions are our priority, and we

are always attentive to ensure that lessons occur in a safe environment. If there are significant changes in weather conditions, we will inform you.

16. CAN I RESCHEDULE MY SURFING LESSON?

At our surf school, we understand that unforeseen events happen, so we allow lesson rescheduling based on availability. Rescheduling should be done in advance, preferably 48 hours before the scheduled lesson. To request the change, please contact us via WhatsApp or email.

17. I PURCHASED A SURFING LESSON FOR MYSELF, CAN I GIVE IT TO SOMEONE ELSE?

Yes, you can give your surfing lesson to someone else! We just ask that you inform us in advance, preferably 48 hours before the scheduled lesson. This will allow us to make the necessary adjustments and ensure a great experience for everyone. To make the transfer, please contact us and provide the name of the person who will attend the lesson.

18. WHAT IS THE CANCELLATION POLICY?

Once you make a reservation for surf lessons, changes or cancellations are not allowed. As outlined in our Terms and Conditions on the website, cancellations are not permitted, except in cases of serious illness or injury. If you inform us in advance (at least 30 days), we can refund up to a maximum of 50% of the paid amount. You may reschedule your lesson up to 48 hours before the start. In the case of adverse weather conditions, we will do our best to reschedule the lesson to a convenient date. We strive to provide our clients with the best experience possible, and our cancellation policy reflects our commitment to accommodating our clients while respecting the time and effort of our instructors.

19. WHERE IS YOUR SCHOOL LOCATED?

The main headquarters of our school is in São Vicente, at Fajã da Areia, in front of the famous surf spot at Baía dos Juncos. We offer a selection of surf gear and accessories for sale, as well as our merchandise.

20. ARE THE WAVES IN MADEIRA GOOD FOR BEGINNERS?

Beaches such as Seixal, Machico, Porto da Cruz, and Baía dos Juncos are examples of places where the waves are more suitable for beginners due to their manageable nature. In these learning areas, the waves are generally smaller, shorter, and break quickly as they approach the shore, except in São Vicente at Baía dos Juncos, where the conditions may be slightly different. This is due to the seabed, which often lacks a smooth transition, unlike shallower coasts. This causes a sudden increase in depth,

LESSONS

making the waves break quickly. Thus, the combination of the coastal type, topography, and seabed in Madeira results in waves that, due to their quality, may limit the expectations of students, especially intermediate ones.

21. WHAT ARE THE IDEAL CONDITIONS FOR SURFING?

The ideal conditions for surfing vary depending on the skill level of the practitioner. In general, for beginners, we look for smaller and softer waves, which provide a more controlled and accessible environment. Factors such as tide and swell are carefully evaluated by the instructor to ensure a safe and enjoyable experience. The best learning experiences happen on less intimidating waves, where students feel comfortable practicing their skills as they progress. A safer approach helps beginners gain confidence and develop a better understanding of surfing techniques.

22. IS IT COLD IN THE WINTER?

The climate is mild in the winter. Temperatures range between 17°C and 22°C, and on colder days, it may drop to 15°C. On the northern side of the island, due to the low position of the sun and the presence of mountains, some areas may not receive much sunlight. The water temperature is around 18°C in winter, which is suitable for using a 3/2 mm wetsuit or even a 2/2 mm wetsuit. It's true that water temperature depends on winds and swell, so warmer water may be found in November, and colder water in June.

23. WHAT IS THE BEST TIME TO SURF ON MADEIRA ISLAND?

The best time to surf on Madeira Island varies depending on individual preferences, sea conditions, and skill level. In general, the best conditions for surfers, especially beginners, occur during the summer months when the waves tend to be smaller and gentler. For more advanced surfers, winter is the ideal time as it brings larger and more challenging waves. Regardless of the season, it's always important to check the surf forecasts and sea conditions before entering the water. Madeira offers a variety of surf spots suitable for different skill levels, making it a versatile and attractive destination for surf enthusiasts.

24. DO YOU PROVIDE SURF FORECASTS AND INFORMATION ON WHERE IS GOOD TO SURF?

Madeira Surf Center provides surf information for free only if you rent a surfboard with us. We offer a daily surf report that includes detailed information on sea conditions. Additionally, there are free webcams available at some surf spots, like Beach Cam, Surf Total, and NetMadeira, which allow you to check real-time conditions. However, it's important to note that forecast websites like Surfline and Surf Forecast may not offer accurate information for Madeira surf spots. Phenomena such as refraction and diffraction can alter the direction and intensity of waves, making predictions less reliable. Therefore, we recommend consulting our surf spots map available on our website.

While there are rocks in the area, lessons are held in deeper zones, away from potential risks. Based on our experience, we have not had any accidents, except for surfboards being scratched due to impact with rocks. Additionally, the waves at Fajã da Areia tend to be longer, providing a more enjoyable surfing experience. On favorable days, we may also see high-level surfers catching waves further out, which is inspiring and enriches the experience. Prioritizing the safety and enjoyment of our students is always our top priority!

29. WHAT IS THE DURATION OF A SURFING LESSON?

A surf lesson lasts approximately 2 hours, with 1.5 hours in the water for group lessons and 1 hour in the water for private lessons. During this time, you'll be catching waves with an experienced instructor who will continuously provide positive feedback and encouragement.
